Data privacy updates

In a recent email, we informed you about the updates to our Privacy Policy – which, in full, can be found by clicking [HERE](#).

Following this, clinics now need to verify that they have consent when setting up a new patient profile. The process now includes the box below, which needs to be checked in order to continue.

Consent (*)

I hereby confirm that the patient has been informed about Glooko's [Privacy Policy](#) and the patient gives consent to such processing of personal data.

Save patient information

When you're done press "Save patient information" below - Don't forget to print out a copy of this information to the patient.
